STEM

WHY STUDY STEM ABROAD?

“ It surprises me how disinterested we are today about things like physics, space, the universe and philosophy of our existence, our purpose, our final destination. It’s a 'crazy world' out there. Be curious.”

Stephen Hawking – British theoretical physicist

Complement your U.S. studies with international experience

Learn from foreign experts with different perspectives; discuss and explore exciting ideas with international students; improve your subject mastery with unique field study.

Earn credit and graduate on time

With so many courses to choose from in many locations around the world, you will find the right program for you, that helps you earn credit and stay on track for graduation.

Broaden and enrich your learning beyond STEM

Give yourself the gift of exploring another culture, other ways of life, history, language, arts, people and more.

Personal development and skills

You will grow and develop as a person in ways that will forever enhance your life: from communication skills and problem solving to cultural awareness, independence, empathy and adaptability.

Enhance your résumé for employers and grad school

Stand out from the crowd with unique, international experience such as: independent research work in Ireland or gaining extraordinary first-hand knowledge of The Great Barrier Reef in Australia.

Time to explore the world & your potential

Study abroad with Arcadia opens up exciting new worlds to you – yes, a new country, but also new ways of learning both academically and through experiences inside and outside the classroom. Enjoy wonderful times with friends, mentors and teachers you haven't met yet.

You'll enjoy the challenge of strong academic courses and you'll apply that learning in new places, with different people and in cultural situations you would never see at home. You'll have fun along the way as you share life-changing experiences with other students and locals alike.

By the time you come home, you'll be enriched and energized with skills, knowledge and credits in your back pocket. Your new level of understanding for how the world works and how people lead meaningful lives will be transformative for you, both personally and professionally. Let's help you rise to your potential!

Earn your STEM credits abroad.

We have developed a range of special focus programs to foster meaningful international experiences for students in the STEM fields. The courses, lab work, and relevant activities keep students on track for graduation and better prepare them to achieve their career goals.

Curriculum Matching

Stay on track for graduation: Arcadia's Academic team ensures that all our STEM programs offer courses that match with U.S. institution requirements so that students like you will earn the credits you need to stay on track for graduation.

Find the program that suits you best: Our Academic team and Program Advisors will also help you and your advisors identify the best program and location for you, given your academic, career, and personal goals for study abroad.

Arcadia understands the challenges and the rewards of study abroad in STEM fields. Email us if you have questions or need more information about opportunities open for you. educationabroad@arcadia.edu.

Health, Safety and Wellness Abroad

Student safety and security is one of our core values. Our Director of Health, Safety and Security leads our staff at home and abroad to care for you with the support of our Student Services team. Our approach to health and wellness prioritizes student learning in a safe and responsible way.

- + We provide thorough pre-departure and on-site orientations to educate you about how to stay healthy and safe in your host country and city.
- + We provide personalized support for students who require disability accommodations or need ongoing medical or mental health care to be successful while abroad.
- + Medical insurance, political security and natural

disaster evacuation coverage is included in program fees for all students throughout the duration of their overseas programs.

- + We monitor world events and operate under the latest best practices in international risk management.
- + Through years of experience we have established a wide network of local contacts overseas that allows us to stay well informed on the ground and plan effectively.
- + We provide 24/7 support and keep parents and partner institutions informed about evolving situations occurring in country and any emergencies.

From providing safe and secure housing and access to health care and wellness resources to providing effective and prompt resolution of emergency situations, our team protects our students' welfare abroad at all times.

We're here to help

While we are prepared to help with major political and environmental events, most often the types of situations with which we assist are minor illnesses, challenges adjusting to a new environment or lost passports.

Support services & mentoring

Our staff are here to support and mentor you through your entire experience, so you can make the most of your time abroad - from ensuring a smooth application process and mentoring to the practical everyday tasks of managing life abroad.

Discipline Specific Programs

Below are our list of disciplines and our global partner institutions.

Biology

STEM Summer Research – RVC London	16
Griffith University	18
Macquarie University	18
University of Melbourne	19

University of Limerick	32
University College Dublin	33
STEM Summer Research – Glasgow	18
University of Edinburgh	29
University of Strathclyde	30
STEM Summer Research – Dublin	17
ISI Florence	33

A range of academic research* opportunities across five countries for a wide variety of STEM discipline fields:

- Biomedical Sciences
- Chemistry
- Engineering
- Environmental Science
- Geological Sciences
- Math
- Psychology
- Physics
- Science Education/Engagement

*Semester research is available at: University College Dublin, University of New South Wales, University of Queensland and University of Auckland.

studyabroad.arcadia.edu/stem

What's Included

All programs from Arcadia offer the highest standards in education, student support and co-curricular learning beyond the classroom.

- + Program tuition
- + Housing
- + Co-curricular activities such as excursions, cultural activities and sporting events
- + In-country orientation by Arcadia staff
- + Arcadia University transcript
- + Personal guidance and logistical support before you go and during your stay
- + Personal academic advising
- + Health and accident insurance
- + Health, safety and wellness guidance and support from resident staff in-country
- + Co-curricular Learning Certificate: official recognition for learning you achieve outside the classroom
- + Opportunities to blog and talk to other students on your program before you leave for your destination

ARCADIA SCHOLARSHIP RANGES:

SCHOLARSHIPS

More than one way to fund your study abroad dream!

studyabroad.arcadia.edu/scholarships

Arcadia offers need-based scholarships
to eligible applicants

Around
70% of students who apply for aid
receive some sort of award

Financial Aid

- + You may still receive financial aid from Arcadia even if you already receive aid from your home school.
- + Our staff can also help you process other financial aid such as federal (Pell Grants, Stafford or PLUS Loans), state and other forms of assistance.

Our staff can also guide you towards
other scholarship opportunities for:

Students studying on a particular program or in a specific country

Specific academic focus areas

Underrepresented student populations

General study abroad scholarships offered by foundations and philanthropic organizations

Will I have authentic involvement in the local community?

Will this program give me the best academic experience?

How will this experience be meaningful for me?

What life skills will I take away from this?

Where will study abroad take you?

Learn and enrich the whole you – from wonderful academic development to personal and professional growth and fulfillment.

It's **Applied Learning** in action – learn as you go and use your skills everyday in different situations so when you come home you have a whole new level of confidence and ability.

Where will study abroad take you?

Our goal is to help you amplify your journey intellectually with contextualized academic study; authentically with community engagement; personally through your choice of adventures;
and professionally with high-impact experiences in applied learning.

LEADERSHIP

COMMUNICATION SKILLS

INDEPENDENCE PROBLEM SOLVING

CRITICAL THINKING

RESPONSIBILITY EMPATHY

CULTURAL AWARENESS

Exploring

All programs include guided visits to everywhere from historical landmarks, bucket-list venues, to key local community hotspots - including many off-the-beaten-track experiences.

Magnifying

Meaningful and challenging experiences add depth to your résumé and show employers and graduate schools you've done and learned MORE.

Building

From trying a new sport or joining a club or society, to attending Arcadia-organized social events, there will be many ways for you to connect with other students and share your adventures.

Contributing

Join volunteer organizations to give back to local communities or causes. Help empower an organization's impact on your adopted community!

“ Arcadia lives up to the mantra of “Learn Everywhere.” Part of studying abroad really made me open my eyes to taking lessons at any and all opportunities. It’s not always about the classroom and it is certainly not always about the grade, but it's definitely about what you can take away from the lesson.”

Rachel Shaffer
Illinois Wesleyan University

**You matter. Your identities matter.
Your concerns matter.**

**We're glad you're here.
We care about your voices and experiences.**

We are here to help you navigate your identities abroad.

Arcadia Abroad's Support of Access, Equity, Diversity, & Inclusive Excellence

In support of our mission to prepare students for a global society, Arcadia Abroad is dedicated to educating every member of our community while working to create opportunities abroad that are inclusive of race, sex, sexual orientation, gender identity and expression, age, national origin, socioeconomic status, religion and abilities.

We are committed to fostering a welcoming environment for our entire global community – students, staff, faculty and beyond. Diversity, equity and inclusion are woven into program development and delivery.

Learn more at
studyabroad.arcadia.edu/diversity

We are committed to providing students from diverse backgrounds opportunities to learn and grow by offering globally enriching and engaging experiences. This includes:

- + training our staff and faculty to support a diverse student population
- + creating a welcoming and inclusive community around the world
- + building programs and initiatives centered on access and equity
- + amplifying diverse voices in our curriculum and instruction
- + working toward systemic change in our policies and procedures

Hear from Other Students and Alumni

What our students say

Check out our student blogs to hear from current and past students overseas.

Get a real feel for the adventure as it happens.

Also, try our Center Blogs for more information about what events, excursions and social connections our center staff provide.

VISIT

studyabroad.arcadia.edu/blogs

Alumni Ambassadors

Contact an alumni ambassador anytime with your questions or to hear their first-hand experience of their program abroad with Arcadia.

Find alumni from your institution; talk to someone about a specific location; discuss topics such as the LGBTQIA+ experience abroad, academic questions, how to get around – whatever's on your mind.

STEM Summer Research Programs

Conduct your research project abroad

studyabroad.arcadia.edu/stem-projects

STEM Summer Research - Granada

Make the best use of your summer with this field and laboratory based research program in environmental health, environmental sciences, physics and mathematics, where you will work closely with an academic research mentor on your chosen project.

- + Conduct research in one of Spain's leading research institutes: Andalusian Institute for Earth System Research (IISTA). The Institute is part of the University of Granada, a leader in science and environmental research.
- + All field and laboratory research is conducted in English.

studyabroad.arcadia.edu/stem-granada

Program Dates

Summer – Late May to Early Aug.

App. Deadline

March 31

SPAIN

Past Project Examples Include:

- + Potential Health Impact of Ultrafine Particles Under Different Urban Atmospheric Conditions
- + Statistical Analysis of Cloud Properties During a Radar Campaign

Projects released Mid Nov./Early Dec.

Limited placements available. Early applications are strongly encouraged.

STEM Summer Research - RVC London

On this innovative program, you will challenge your critical thinking skills, earn valuable research credits and experience all the wonderful things London has to offer during the summer, without disrupting your academic schedule at home.

- + Dedicated projects for students may include: cardiovascular biology; cell and molecular biology; developmental biology; molecular and microbiology; orthopedic imaging; parasitology; reproduction and more.
- + Your research will be conducted alongside industry professionals at the prestigious Royal Veterinary College (RVC), a leader in the field of biomedical sciences.

studyabroad.arcadia.edu/stem-london

Program Dates

Summer - Late June to Early Aug.

ENGLAND

Past Project Examples Include:

- + Accelerometry-based activity and behavior monitoring in dogs
- + Does hypoxia trigger cancer cell transdifferentiation in some glioblastoma cells?
- + Flow sensing on the wing for insect flight control

App. Deadline

March 31

STEM Summer Research - King's College London

Conduct your own research project at one of the world's leading institutions with this unique program at The School of Biomedical Engineering and Imaging Sciences (BMEIS) at King's College London. BMEIS's research focuses on applying fundamental engineering techniques to address clinical problems. The school is based at St Thomas' Hospital in Central London and works collaboratively with clinicians to ensure that its work is directed towards unmet patient needs.

- + In addition to your chosen project work in the lab and studying, you'll attend seminars on academic writing, meet with your advisor weekly and have the option of attending additional seminars on discipline-specific skills.

studyabroad.arcadia.edu/stem-kings

Program Dates

Summer - Late June to Mid Aug.

ENGLAND

Past Project Examples Include:

- + Assessment of the HTC Vive for surgical planning in cardiology
- + Surgical repair of the rib cage using 3D printing
- + Detecting Atrial Fibrillation From Wearable Sensor Signal

App. Deadline

March 31

STEM Summer Research Programs

Conduct your research project abroad

studyabroad.arcadia.edu/stem-projects

STEM Summer Research - Dublin

Spend your summer conducting research in your STEM field of choice with leading experts in Ireland at University College Dublin. Projects are available in biology, chemistry, computer science, geological sciences and ecology. The lively city of Dublin is thriving in summer, offering many exciting cultural attractions and opportunities. The Arcadia staff will be happy to guide you on everything Dublin has to offer.

- + This experience will add a fascinating dimension to your résumé when applying for graduate school or a career in your chosen field.
- + You will engage in faculty supervised, hands-on research projects with results that will culminate in the preparation of a research paper and poster.

studyabroad.arcadia.edu/stem-dublin

Program Dates

Summer - Late May to Late July

IRELAND

Past Project Examples Include:

- + Exploring Educational Programming Data in the Blackbox Dataset
- + Association of Gut Barrier Dysfunction with the Microbiome in Colorectal Cancer

App. Deadline

March 31

STEM Summer Research - Limerick

Whatever your engineering passion, this exciting summer program gives you the opportunity to earn academic credit by conducting your own independent research in your chosen field. You'll work under the guidance of one of Ireland's leading Engineering schools: the University of Limerick, home to the innovative Bernal Institute, which focuses on the thematic areas such as advanced materials, manufacturing and process engineering and fluid dynamics.

- + Offers projects in biomedical engineering, materials engineering and science engagement.
- + Limerick also offers projects and research in the areas of chemistry and computer science.
- + Three meals a day (Monday - Friday) at University of Limerick's campus are included.

studyabroad.arcadia.edu/stem-limerick

Program Dates

Summer - Late May to Early July

IRELAND

Past Project Examples Include:

- + Identifying security risks that make the modern/electric vehicles susceptible to hacking
- + Computational Modelling of Mechanical Behaviour of Lightweight Carbon Fibre Materials

App. Deadline

March 31

Projects released late Oct./early Nov.

Limited placements available. Early applications are strongly encouraged.

STEM Summer Research - Glasgow

.....

This is a unique opportunity to spend your summer working on an independent research project with experts in your chosen field in the charismatic and exciting city of Glasgow. Choose from a variety of summer research projects in biology, psychology, and chemistry. Such work and experience will resonate strongly with both employers and graduate schools.

- + Faculty mentors will work closely to direct your work and continued growth and development in your chosen research topic.
- + The International Summer School at the University of Glasgow has a full program of extra-curricular activities, in addition to Arcadia organized excursions.

SCOTLAND

Past Project Examples Include:

- + Cryovolcanoes: the volcanoes of the outer solar system
- + Understanding the impact of weak lensing on gravitational-wave cosmology
- + Using *Caenorhabditis elegans* as a Model Organism for Genetic Screens

 studyabroad.arcadia.edu/stem-glasgow

Program Dates

Summer - Mid-June to Late July

App. Deadline

March 31

Griffith University

.....

Although a large university, Griffith encourages close-knit learning environments and cultural integration in its campuses: two wooded locations at Nathan and Mt. Gravatt; the Gold Coast campus nestled between beaches and rainforest; and South Bank, located in the culture and arts hub of Brisbane. The university's major strengths are in the humanities and environmental science and policy.

Queensland University of Technology

QUT offers particular strengths in creative technologies, engineering and IT. It is renowned for its technology facilities, including The Cube – one of the world's largest digital interactive learning and display spaces, dedicated to providing an inspiring, explorative and participatory experience of QUT's science and engineering research.

studyabroad.arcadia.edu/qut

University of Melbourne

This popular institution with ivy-covered walls has state-of-the-art facilities and a convenient central location. Melbourne is consistently ranked as one of the top universities in Australia and is especially famous for its medical, engineering and scientific research.

You'll be spoiled for choice with the courses you can take at this leading institution, from strong engineering options to science and even pre-med.

Nov. 15

Macquarie University

This campus in North Sydney offers flexibility and a change of pace from the downtown area with a thriving student body and active campus life.

Macquarie is strong in the arts and offers an AACSB-accredited business school. It is particularly known for its anthropology and Australian and indigenous studies courses.

studyabroad.arcadia.edu/macquarie-univ

University of Wollongong

The city of Wollongong is located only 90 minutes south of Sydney and is the gateway to the South Coast of NSW. The University of Wollongong (UOW) is one of the world's most respected young universities, situated on an 83-acre campus nestled between beautiful bushland and the stunning coastline. Studying at UOW allows you to learn from some of the brightest minds, as the institution is recognized globally for its academic excellence and whose students graduate ranked amongst the highest in the world.

Being Australia's 9th largest city and located so close to Sydney, Wollongong is a vibrant location that offers the perfect study abroad experience with the quintessential Australian lifestyle.

ENGLAND	NAMIBIA	SPAIN
GUATEMALA	NEW ZEALAND	USA
IRELAND	NORTHERN IRELAND	WALES

For over **70 years**, students like you, from colleges and universities throughout the U.S. have been studying abroad with Arcadia.

ARCADIA
UNIVERSITY

Founded in 1853, Arcadia University is a leader in international education. The first group of Beaver College women traveled overseas in 1948 to study the economic effects of World War II in Europe, paving the way for generations of students to study abroad. Over seven decades later, Arcadia University continues to offer excellence in international education and has integrated it as a core component of the higher education experience.
